Are you a local landlord in North Somerset with a family sized property that is currently vacant which you would be prepared to rent to a refugee family from Syria? If so we would like to hear from you.

Housing that would be suitable ideally will have two or more bedrooms and can be furnished or unfurnished in both rural and urban locations throughout the district. The properties can be self-managed by you or your agent, alternatively a not for profit Housing Association Mears Plexus may be able to lease the property from you. Plexus would then rent the property to a refugee family, provide a full management service and offer you guaranteed rent each month for period 1-5 years.

Tenancy agreements lasting up to five years are preferred to provide stability for the families but tenancies over 12 months will also be considered.

If you have a property that could help a family in great need and would like to discuss this further please contact Housing Resource Officer, Tanya Pulsford: tanya.pulsford@n-somerset.gov.uk
