All products are ‘UNLIMITED’ i.e. no usage charges!

Wight Wireless means a reliable connection, with great latency and very little contention i.e. fit for today and the future. By taking a Wight Wireless service, you will no longer be encumbered by an ageing infrastructure, or reliant upon companies that are content to sell 'superfast' services when it clearly is not.

Wight Wireless in Dundry

You may have heard of Wight Wireless in regards to our recent activity in working with The Dundry Broadband Group, if not...well where have you been? We’ve been working on providing superfast speeds that only Wight Wireless can deliver in Dundry.

To put it simply, you know you deserve a better choice in a broadband service that you ‘actually’ receive! For some of you, it may have been some time since you have heard from a company that does what it says on the label ‘Wight Wireless a Superfast FWA ISP’. That said, we’ve been busy, busy planning how we’ll be building out our network and looking very closely at how to reach as many homes as possible, even in the hardest to reach locations. We’d be really pleased if you could register by emailing me (charles.turton@wightwireless.net) with your full address and contact details...and your CDS Voucher code if you have one.

And while you are at it perhaps you could chat to your friends and neighbours to get them on board!

Very soon (weeks not months), we’ll be ready to deliver service to you, and we could not be more delighted to so!

So, what happens next?

Well, if you register I'll be sending out updates specifically about Dundry, letting you know valuable information about:

• The ease of switch and transition.
• The uptake levels for your area & what you can do to help.
• Answering any outstanding questions, you may have...

So, for now, a big thank you for reading this ‘flyer and hopefully providing your much needed support, and in the meantime, be nice to YOUR Dundry Broadband group (all volunteers) who have done so much to get this great initiative off the ground, so to speak 😊

If you have any questions whatsoever, please don't hesitate to get in touch direct with me on my direct number 07483 231793 or contact our office on 01983 770000.

Kind regards,

Wight Wireless and The Dundry Broadband Group
